

Front End Loader

This assessment only program is designed to cover the skills and knowledge required to safely operate a wheeled front end loader in a safe working condition. Additional skills covered are identifying and reporting hazards, faults, risks and environmental issues, start up and shut down procedures, shift loads safely, communication techniques and knowledge of relevant policies and procedures required to operate a front end loader.

ENTRY REQUIREMENTS

Applicants will need to read pre learning documentation prior to the assessment that will be provided by LITA Training. All applicants will undertake a short assessment to determine whether this is the best course for their needs, including language, literacy and numeracy skills. Where learning needs are identified, LITA Training may offer you additional support or refer you to a more suitable course.

COURSE HIGHLIGHTS
